WALK IN THE FOOTSTEPS OF HISTORY

cultural immersion

Explore Your Gateway To Beijing

The Wharton China Business Society offers **students from all schools at Penn** who are interested in Chinese business a two-week excursion into the nation's capital, where participants will have a chance to visit Chinese firms, universities, as well as historic landmarks. This trip will give students a better insight on the growing economy and business potential in China, while also immersing students in the cultural life. Students will be able to experience the real "Beijing life" to better understand the business and cultural environment in China.

Our **corporate visits** target a wide range of industries from Finance, Retail, and Law to Oil & Energy, Computer/Technology, and Architecture. We also look for international and national firms, state-owned and private firms, as well as start up firms. During corporate visits, students will be able to interact with CEOs and managers of the firm. In the past, we have visited:

- * Air China
- * Arrail Dental
- * Boeing
- * China MinSheng Bank
- * China National Petroleum Corporation
- * GE Healthcare
- * Goldman Sachs
- * IBM
- * Industrial and Commercial Bank of China
- * Morgan Stanley

company visits

INFO SESSION

3/19 7PM JMHH F96

An important part of our trip is to also **visit universities in Beijing**, where students will interact with professors and students from Chinese universities. Participants will be able to tour the campuses as well sit in on a few sample classes.
